

# FlyTV Platinum TV capture card from Animation

Animation Technologies Inc. has introduced the FlyTV Platinum video capture card. It incorporates the Philips Silicon Tuner solution and supports all worldwide TV systems on one card. There is no need to change your TV card anymore.

Lifeview's next generation Global TV video capture card brings a whole TV world to your home. With the unique advantage of the Philips Silicon tuner, the FlyTV Platinum not only covers TV standards worldwide but also provides for customers the best quality and performance, enabling you to watch TV on the PC without any restriction.

This video capture card covers NTSC, PAL BG, PAL DK, PAL I and SECAM LL', all

in one.
